

Bear

**TRADITIONAL
ARCHERY**

2014

The LEGEND CONTINUES

After 80 years, everything
is different and nothing
has changed.

Some 80 years ago, a man named Fred Bear made a decision that would have a profound impact on every aspiring archer, avid target shooter, and devoted bowhunter since. He decided to start a bow-making company.

Fred was the ultimate sportsman, skilled and respectful, and sought to convey those attributes through the most innovative, satisfying and effective bows ever made. We still believe in his goal, and strive to achieve it with every Bear Archery product.

So here's to you, Papa Bear. Thank you for your spirit and vision...for setting an example for generations of shooters, before us and after us...for sharing a passion that's still with us today. Until we meet again ...

Happy hunting to all from,

Fred Bear

The Kodiak

A FUNCTIONAL WORK OF ART.
MODELED AFTER THE FAMOUS '59 KODIAK

Ask around about Bear bows and you will surely hear tales of the '59 Kodiak. Throughout the years, Bear has been asked time and time again to "bring it back". Out of respect we were convinced the '59 Kodiak could never and would never be duplicated. However, just like Mr. Bear, we believe in giving people what they want. It is with great pride and honor that we introduce the Bear Kodiak, inspired and modeled after the ever famous '59 Kodiak.

CONSTRUCTION

The I-Beam is constructed of Purple Heart with Bolivian Rosewood on the sides; limbs are fashioned with action maple cores, faced with carmel colored glass and backed with a brown glass sleekly radiused for precision shooting. Risers are faced and backed with thin strips of purple heart. The tips are layered with brown and white fiberglass, and hand finished to accommodate modern bow strings. Finally the grip is capped on the back with brown and white fiberglass accents and wrapped in supple leather.

FEATURES

- 60" AMO length
- Gloss or satin finish
- Large profile leather rest plate and a forgiving feather arrow rest
- Leather grip

The Take-Down

FRED BEAR'S PREFERRED BOW FROM 1969 TO HIS LAST HUNT

Mr. Bear brought about many innovations to the archery industry, but perhaps his proudest moment came in 1969 when production first began on his famous Take-Down recurve bow. The classic design was years ahead of it's time and still to this day you hear people saying there simply is no finer Take-Down. Not only does this bow pack easy, but it shoots and feels like a dream. This legendary, but modern design is available in both A and B riser's giving you plenty of versatility. Mr. Bear hunted with this bow almost entirely until his last hunt.

The 3-piece riser is constructed from black maple or black maple and African bubinga with a red accent stripe; the limbs are fascor powered and backed and faced with high strength black fiberglass. Tips are handcrafted with layered red Dymondwood® and black fiberglass allowing the use of today's modern bow strings.

FEATURES

- A-Riser = 56" AMO - #1 Limbs
- B-Riser = 60" AMO - #1 Limbs
- Crowned, cut-on center arrow shelf with Bear Hair Rest and leather side plate
- Dynafight 97 Flemish Twist string (red and black)
- Inlaid compass (a favorite of Mr. Bears)
- #3 limbs available

The Super Kodiak

THE CRAFTSMANSHIP OF THIS BOW IS LEGENDARY. JUST LIKE THE MAN WHO ONCE MASTERED IT.

1967 marked the end of an era and the beginning of a new one at Bear Archery, after 17 years of production, the Super Kodiak replaced the very popular Kodiak line of bows. Fred Bear used this model bow for many years on quests for African lion, cape buffalo, Alaskan polar bear and the British Columbian grizzly bear.

The 2-piece riser - is made of brown and black Dymondwood® featuring limbs overlaid with clear maple, backed and faced with high strength black fiberglass. The tips are handcrafted and layered with black and white fiberglass.

FEATURES

- 60" and 64" AMO length
- Crowned, cut-on center arrow shelf with Bear hair rest and leather side plate
- Dynafight 97 Flemish String

The Kodiak Magnum

A BOW HUNTERS DREAM DUE TO IT'S SHORT LENGTH & EASE OF MANEUVERABILITY.

Modeled after the famous Kodiak bow, the Kodiak Magnum was first introduced in 1961 as a bow hunters dream due to its short length and ease of maneuverability. The design stuck and it has been around ever since.

FEATURES

- ▶ 52" AMO length
- ▶ Crowned, cut-on center arrow shelf with Bear hair rest and leather side plate
- ▶ Dynafight 97 Flemish String

The Super Mag 48

A 48" HUNTING BOW, BUILT FOR HUNTING OUT OF GROUND BLINDS & TREE STANDS

In 1966 Bear introduced the bow they said could not be made, a 48" hunting bow proudly called the Bear Super Magnum 48. Over 48 years later it remains a proven product for those who need a short hunting bow no matter the situation. This bow is built for hunting out of ground blinds and tree-stands, or can be used as the perfect bowfishing bow.

- ▶ Crowned, cut-on center arrow shelf with Bear hair rest and leather side plate
- ▶ Dynafight 97 Flemish String

The Cheyenne

REMINISCENT OF FRED'S FAVORITE BOWS OF THE EARLY 60's

First introduced in 2002 the Cheyenne project was a collaboration between father and son - Grant Neil Byce II, Fred Bear's retired Master Bowyer and Grant Neil Byce III, Bear Archery's current Director of Operations. The Cheyenne's length is just enough to handle the swept back style limbs of the Take-Down, while the grip is designed to feel full in the hand while incorporating the half-moon styling that is reminiscent of Fred's favorite bows of the early 60's.

- Dynafight 97 Flemish string

The Grizzly

BIG PERFORMANCE IN THE FIELD GOING ON 50 YEARS

The Grizzly is one legendary bow that has been proving itself since 1950 and is still to this day an important offering in our traditional line. Mr. Bear made the last design change to the Grizzly in 1964. This value priced bow is designed for big performance that will go easy on anyone's budget. Whether you are new to traditional archery or an expert, the Grizzly is a sure shooter for any skill level.

- Crowned, cut-on center arrow shelf with Bear hair rest and leather side plate
- Dacron Flemish string

The Super Grizzly

TWO LAMINATION LAYERS ALLOW BETTER SHOOTING WITHOUT HAND SHOCK

The Original Super Grizzly was available in the mid-1970's and was reintroduced in 2011 to the delight of archers who prefer a smooth-shooting feel. The Super Grizzly's performance is based, in part, on two layers of lamination in the limbs, creating a better feeling, better shooting bow without hand shock

Fred Bear

The Kodiak Cub

PASSING TRADITIONAL ARCHERY ON TO THE NEXT GENERATION

This 48" traditional youth bow was originally known as the Little Bear and was introduced in 1965. Forty-seven years later your youngster can still have a laminated bow of adult quality just like mom and dad's. This is a smooth shooting youth bow and is great for teaching archery fundamentals the right way.

RIGHT HAND

CONSTRUCTION

The Kodiak Cub traditional youth bow features a riser handcrafted from black laminated hard rock maple and limbs backed with high strength black fiberglass.

FEATURES

- 48" AMO length
- Dacron string

The AuSable

NAMED FOR THE RIVER WHERE
FRED BEAR FOUND INSPIRATION

The **AuSable** longbow aptly named after the AuSable River, introduced in 2011 has been well received by longbow enthusiasts. What sets the AuSable longbow apart is its reflex/deflex design, larger sight window, full radiused grip and crowned, cut on center arrow shelf. The bamboo core limbs make this bow smooth, quiet and fast. Now available in 62" and 64".

The 2-piece riser is crafted from exotic Bubinga and carries an inlaid matching accent stripe. The AuSable's limbs have 3 layers. The center core is Maple and is overlaid with 2 layers of Bamboo and backed with high strength fiberglass creating a smooth shooting and powerful bow. The tips are handcrafted and layered with black and white fiberglass.

FEATURES

- 62" and 64" AMO length
- Dynafight 97 Flemish string

The Patriot

EXCEPTIONAL LONGBOW SPEED WITH JUST THE RIGHT AMOUNT OF “THUNK”.

Byron Ferguson, a trick shot specialist and renowned hunter worked with Bear Archery on the design of the Patriot longbow. The design was created by Byron and is currently manufactured by Bear Archery. The design utilizes the Bear look along with the characteristics of a bow laid out by Byron. This partnership has spawned a spectacular shooting bow sure to please anyone wanting a high performance longbow.
