Set up instructions

1. Screw the Target Hook by hand into the center hole on the target board. Make sure Target Hook end does not protrude from back of the Target Board. (Must be flush as to not damage your wall). Also, insure Target Hook is in upright position as per the above diagram.
2. Mount the Target Board on wall approximately 4 to 5 feet high using the adhesive tape and or screws enclosed.
3. Screw Eye Hook into ceiling in line with, and approximately 4 – 6 feet away from the wall that the Target Board is attached to.
4. Tie string to the Ring and place Ring onto the Target Hook.
5. With help, hold the Ring in the horizontal position on the Target Hook and tie the open end of string onto the Eye Hook. There must be a slight amount of slack in the string which will allow the Ring to hook onto the Target Hook when properly tossed. Adjust slack in string to achieve the optimum playability of the Hook and Ring game.

Note: This Hook and Ring Set can be attached and played on trees, Decks, ceilings etc., depending on the correct location of tree limb and deck ceiling for installation of the Eye Hook. A simple fixture can also be made from 2x4 lumber to accommodate both the Target Board and Eye Hook.

Game Rules

BEST OF 10

- Compete against yourself or an opponent to see how many ringers you can score out of 10 tosses.
- The person with the most ringers, wins.

HORSE

- First, decide on order of turns
- The first player then makes any kind of shot at the ring
- If player 1 makes the shot, player 2 has to try and make the same shot from the same place and using the same style that player 1 did. if the second person misses then the third person takes his own or her own shot.
- If player 2 makes the shot then player 3 (or player 1 depending on how many players you have) attempts the same shot.
- If player 1 misses that first shot, player 2 becomes the leader and picks the next shot.
- Each time a player miss a shot that another player has made, another letter is added to their score beginning with h, then o, r, s, and finally, e. when a player spells horse, he or she is out of the game.
- The last person standing wins.
